REMARKS

With regard to the accompanying Continuation Application, Applicants have amended the priority claim to recite the parent application, which has been allowed and will issue as a patent.

The accompanying specification is a true copy of the original filed specification except that a new claim set has been added to recite claims to inventions different from those of the original claim set.

In addition, a set of the original drawing sheets has been filed as well. If these are found to be unacceptable, Applicant requests that the formal drawings and photographs submitted in the parent application (U.S. 09/314,855, filed March 12, 1999) be used in their place.

No additional fee is believed due in filing the above amendment. The Commissioner is requested to charge any additional fees, or credit any refunds, to Deposit Acc't No. 03-0678.
